NEW DAILY E6

THE VEHICLE WITH THE BUSINESS INSTINCT FOR TRANSPORT

The new Daily is the best partner for your business.

It is just as strong, versatile and as **high a performer** as ever. In addition, true to its **business instinct for the transport industry**, it introduces new features that make it an even better partner for your business.
The Daily E6 has put innovation and **technology at your service** to help you manage your vehicle effectively, and enjoy how its lower cost of ownership **contributes to a healthy bottom line for your business**. The E6 engines run cleanly and efficiently, adding to **your sustainable** credentials.
It also takes care of its drivers: the cab is more comfortable and quieter than ever, and with the HI-MATIC transmission drivers will **discover the meaning of absolute driving pleasure**. The Daily E6 is also introducing a new level of connectivity, fully integrating your mobile device with the vehicle so that it becomes your business and driving assistant.
The widest range in the industry has become even wider to meet the evolving and broadening spectrum of requirements of your business and of transport operators around the world.
The Daily E6 is the perfect partner, with its unfailing **instinct** for **anticipating your business needs** and providing the solution when you need it, year after year.

PROFIT MAKER

THE BEST PARTNER FOR YOUR BOTTOM LINE

The Daily ∈6 is the professional partner that will help you achieve a healthy bottom line. You can choose and **personalise** the vehicle that perfectly fits your business needs thanks to the widest **model line-up** on the market. You can count on the job being done efficiently with low running and maintenance costs (Total **Cost** of Ownership). Being the best partner for your business also means also that you can always rely on a professional service network whenever and wherever you need it.

UP TO 8% FUEL SAVINGS*

The Daily ∈6 further improves on its reputation for delivering fuel economy. The Variable Geometry Turbocharger, available on models from 136 hp to 180 hp, ensures a **more efficient use of the engine**. The EcoSwitch solution has evolved: the new EcoSwitch PRO intelligent system knows when to step in and reduce torque without intervention from the driver, **reducing fuel consumption** with no compromise on your productivity. The exclusive IVECO Driving Style Evaluation system helps you improve the way you drive, just as if your driving instructor was sitting right next to you, which can result in **significant additional fuel savings.**

UP TO 12% REDUCTION IN MAINTENANCE AND REPAIR COSTS**

The longer maintenance intervals, extended to 50,000 km thanks to longer lasting components and consumables, give you **20% more up-time between services**. The optimised braking system with new, tougher brake pads is more efficient and durable than ever.

On top of that, wherever you are, whatever the time, you can count on a professional and specialised service network that will keep your business running.

* Compared to equivalent Euro 5b+ models and according to the New European Driving Cycle (NEDC).
** Compared to equivalent Euro 5b+ models.

The intelligent EcoSwitch PRO system knows exactly when to step in without intervention from the driver, recognizing if the vehicle is loaded or not, **reducing fuel consumption** and further **lowering emissions**.

The **Driving Style Evaluation** (DSE) system is like having an instructor on board, giving real time suggestions to your driver on how to optimise his driving style with a consequent reduction in fuel consumption. Experience has proven that just following the DSE's suggestions can **save as much as 15% of fuel**.

SUSTAINABLE TECHNOLOGY

POWER AND EFFICIENCY AT YOUR SERVICE

The Daily ∈6 applies its business instinct to advanced engine and transmission technologies in order to deliver the top class performance you need to complete your mission efficiently and reliably. The new engine line-up delivers more power and torque, while reducing the Daily ∈6's impact on the environment with its low emissions.

ENGINE TECHNOLOGIES TO MAXIMISE EFFICIENCY

LP-EGR technology without AdBlue®: models that run IVECO's 2.3-litre F1A engine with Low Pressure Exhaust Gas Recirculation are ideal to keep the vehicle management as simple as possible. A host of features such as the variable displacement oil pump and the turbocharger will ensure you enjoy **excellent fuel economy** - and lower running costs - as well as more power and torque.

SCR technology: models featuring a Selective Catalytic Reduction* after-treatment solution benefit from this simple system that doesn't change the combustion process, so you have **all the power and efficiency you need** with low operating costs.

CNG technology: Daily Natural Power delivers the same performance and transient response as its diesel equivalent, because it features a true diesel engine adapted to run on Compressed Natural Gas. It is a **clean-running vehicle** and **remarkably quiet**, which is an added benefit in urban areas with low emission zones.

* *Standard on models with F1C engine, optional on those running the F1A engine.*

HI MATIC

THE ABSOLUTE DRIVING PLEASURE

IVECO's exclusive HI-MATIC 8-speed automatic transmission delivers all the benefits of comfort, safety, fuel economy and performance on an increasingly wide range of models, to satisfy all your business needs.

PRODUCTIVE COMFORT

ENJOY YOUR PROFESSIONAL WORK ENVIRONMENT

The Daily EEV combines its natural vocation for transport with superior comfort, functionalities and driveability. When you are at the wheel, you can relax in the comfort of the cab, knowing that you are getting the job done efficiently. The cab provides you with a professional work environment brimming with new features to help you run your business.

EXPERIENCE ULTIMATE EFFICIENCY IN YOUR MOBILE OFFICE

The **functional dashboard** combines style with practical and useful features. You can plug in your mobile phone or tablet and recharge another device in the 2 USBs, and you can add the optional inductive charger. The **quality and layout of the controls** make it easy to drive comfortably.

The **numerous storage compartments** have been designed to maximise accessibility. Up to 18 of them, including a new and useful **open compartment**, are **strategically placed** around the cab and **easy to reach**, so that you can keep your documents and work materials organised and handy.

The new **DAB radio** integrated in the dashboard offers all the main DAB and FM features: for example, you can select the radio station by name, read the title of the programme or song you are listening to, set it to receive traffic and weather announcements, pre-set up to 15 stations, and many more.

The easy-to-read redesigned cluster coupled with the proven ergonomics of the dashboard controls, where everything is close at hand and in its right place, make it easy to drive safely and comfortably.

All imagery on these pages show use of tablets or smartphones that are not included in the vehicle standard equipment.

EXPERIENCE ULTIMATE COMFORT

The cab is now even **quieter** as the interior noise level has been significantly reduced. The **3-decibel reduction** has improved vehicle acoustics and sound recognition **by 8%**.

The **comfortable interior**, enhanced with a new **leather steering wheel**, together with the **blue seat upholstery** and the new **textile foam headrest** provide a professional environment where you and your passengers can work productively and in full safety.

The door panel has been redesigned with an open compartment where, for example, you can store the first aid kit. The cab offers 18 practical storage compartments so that you can keep all your personal and working materials close at hand and organised.

The dashboard and door panel finishing are available in a full black version and, for those who are looking for exclusivity, in the stylish two-colour blue and black version designed for complete harmonisation with the cab upholstery.

ON-BOARD CONNECTIVITY

THE SIMPLE WAY TO KEEP YOUR BUSINESS CONNECTED

The Daily ∈6 introduces a new way of delivering connectivity: you don't need any additional equipment, just your smartphone or tablet. Once you've downloaded the DAILY BUSINESS UP app on your device, it will automatically establish a Bluetooth connection with the vehicle through the DAB radio: it is now fully integrated and in direct communication with your Daily ∈6 and its engine. Now you're set: with DAILY BUSINESS UP on your device, just start the engine, switch the radio on, and you are connected. You can enjoy the benefits of the dual role it can play for your business, driver and business assistant.

DAILY
BUSINESS UP

YOUR DRIVER ASSISTANT

DAILY BUSINESS UP can serve as the driver's instructor through the Driving Style Evaluation system, as navigator with the Sygic Professional GPS navigation system, and help increase efficiency in the day-to-day work as well as ensuring the vehicle remains in top condition.

And, of course, it provides all the multimedia infotainment features you might expect to find in a high-end car.

The conveniently placed tablet holder can hold smartphones and tablets of different sizes.

With DAILY BUSINESS UP on your device, you can:

- Get on-the-job driving instruction with the Driving Style Evaluation system
- Find the best route with the Sygic professional GPS navigation system
- Monitor additional vehicle functions with the extended dashboard
- Easily check the Interactive User Handobook if you need any information about your vehicle
- Enhance the functionalities of your mobile phone, including listening to and reading text messages
- Manage the multimedia content on your device or USB stick
- Contact IVECO Assistance Non-Stop, the 24/7 roadside assistance service

YOUR BUSINESS ASSISTANT

DAILY BUSINESS UP can help you schedule jobs and communicate your updates in real time to your driver. You can organise your driver's itinerary and assignments in order to optimise the use of the vehicle, and manage your fleet efficiently to the benefit of your business.

With DAILY BUSINESS UP you can:

- Optimise your fleet's deployment, schedule jobs and dispatch them in real time to the drivers with Sygic FleetWork which is fully integrated with the vehicle's Sygic GPS navigation system
- Keep track of scheduled services with Maintenance Plan alerts
- Monitor your driver's performance and on-the-job training with DSE
- Keep in touch with IVECO and up-to-date with the latest Daily news
- Find the nearest IVECO Dealership and Service point
- Access all the vehicle's information at a touch of the screen

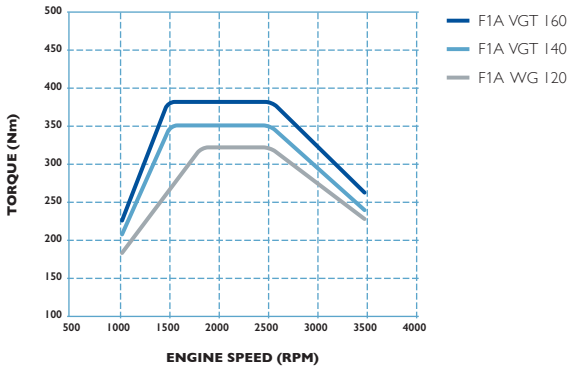
UNRIVALLED PERFORMANCE

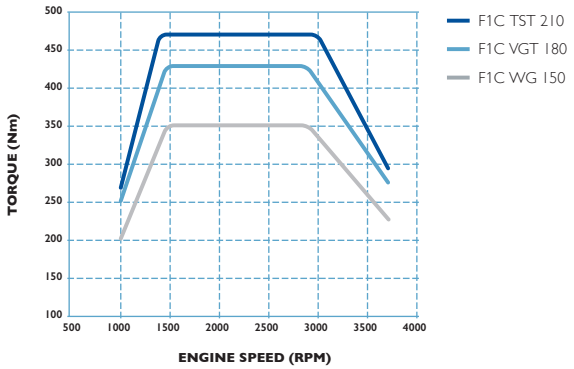
TOP-NOTCH ENGINES TO UNLEASH YOUR TALENT

The Daily Є6 delivers all the traction, load carrying capacity, power and quick response you need coupled with excellent fuel efficiency, and you can count on this top-notch performance being maintained over many years of service. You can choose the performance that is the best fit for your mission: maximum power ranges from 116 hp at the entry-level model to 205 hp, the highest in the industry for 4-cylinder engines. The choice includes the new 136 hp VGT and 180 hp models, as well as the F1A 2.3-litre top performer: 156 hp VGT. On top of this, maximum torque can be as high as 470 Nm for the F1C 3.0-litre engine. All engines are optimised for top performance in every mission, and will give you high mileage at maximum efficiency. For transport businesses looking for quiet operation and a sustainable solution, the Daily Natural Power 136 hp that runs on Compressed Natural Gas is the perfect answer.

F1A Є6 TORQUE RATINGS



F1C Є6 TORQUE RATINGS



VGT: Variable Geometry Turbocharger; WG: WasteGate; TST: Twin Stage Turbocharger

Strong performance over time with the flat torque curves, higher torque and higher horsepower at low engine speeds.

UNLIMITED VERSATILITY

A DAILY FOR BOUNDLESS AMBITIONS

The Daily €6 is the most versatile vehicle in its class with the widest line-up in the industry. It is the only vehicle that ranges from 3.3 right up to 7.2 tonnes, with wheelbases from 3,000 to 5,100 mm and body lengths up to 6,190 mm, opening up a wealth of possibilities for a wide variety of missions from urban deliveries, to heavier transport jobs in the construction sector. The vehicle's strength and durability is derived from the unique ladder frame chassis which is engineered with C-section side members in special steel, and which affords maximum flexibility to bodybuilders.The number of bodywork options available offers an extensive variety of possible missions, making it easy to customise the Daily €6 for many municipal applications, from refuse collection to urban transport, or turn it into a recovery vehicle, a tow truck or an ambulance – and it is so strong that it is perfect to be made into an armoured vehicle. The Daily €6 has applied its sound business instinct for the transport industry to anticipate your needs: whatever your mission, you can find the model that matches your requirements - it is capable of completing your jobs with ease, efficiently and with a low cost of ownership, and with a kind eye to the environment, contributing to your business's sustainability.

The range includes chassis cabs, crew cabs and chassis cowls.

GROSS VEHICLE WEIGHT	CHASSIS CAB	CREW CAB	CHASSIS COWL
				3.3 - 7.2 t	3.3 - 7 t	3.5 - 7.2 t

INNATE ROBUSTNESS

BUILT TOUGH. NO ONE EVEN COMES CLOSE

The Daily ∈6 was born to handle the most demanding jobs: it has the DNA of a truck and is built like one. With GVW ranging all the way up to 7.2 tonnes, it is the only light commercial vehicle with a truck-like solid steel load-bearing chassis made of high-strength steel, up to 5 mm thick, which allows for greater load capacities and has made it possible to optimise load-carrying ability across the range. The high performance front suspension not only gives excellent vehicle control, but also raises the maximum permissible load. The light and strong QUAD-LEAF suspension, available on all 3.5 tonne models, allows for a front axle maximum load capacity of up to 1,900 kg, while with the QUAD-TOR suspension on twin wheel models it is as high as 2,700 kg on 7 and 7.2 tonnes models. With the bigger payloads, you will get the job done quicker and with fewer trips, saving on running costs and reducing your carbon footprint.

The extra strong QUAD-TOR suspension allows for payloads up to 4,900 kg.

UNIQUE DURABILITY

DESIGNED TO DELIVER ENDURING VALUE

The Daily ∈6 has a load capacity no other vehicle in its class can match and it is built to carry on with its high performance day after day, year after year – longer than any other vehicle. The driveline, with its reliable engine and transmission that ensure the engine is always running at optimal speed, will enjoy a long life and maintain its top-notch performance right up to the end. The chassis, with its C-section profile and made from high-resistance steel, is guaranteed to last ensuring a very long life for the vehicle. The Daily ∈6 will be good for your bottom line every day that it works for you; it doesn't miss any opportunity to add value to your business!

The unique truck-derived chassis is designed for heavy missions.

NEW DAILY HI MATIC E6

THE ABSOLUTE DRIVING PLEASURE

FIRST 8 SPEED AUTOMATIC GEARBOX IN THE INDUSTRY FOR BEST COMFORT AND SAFETY

The new gearbox generation is designed to provide absolute driving pleasure: with the ergonomic multifunctional shift lever you are fully focused on the traffic and driving conditions. HI-MATIC is the solution for enhanced safety while driving comfortably.

OUTSTANDING FUEL ECONOMY THANKS TO A CHOICE OF ECO OR POWER MODES

It perfectly fits your daily work with the self-adaptive shift strategy. Your Daily HI-MATIC Ɛ6 smoothly engages the correct gear in less than 200 milliseconds. With the widest ratio spread, the engine will always be in the optimal gear.

UP TO 10% LOWER MAINTENANCE AND REPAIR COSTS VS MANUAL TRANSMISSION THANKS TO RECORD RELIABILITY AND DURABILITY

Designed with durability in mind, the new solutions protect the engine and transmission to ensure less maintenance. Our engineers have ensured that the legendary durability of the Daily is surpassed.

BEST IN CLASS PERFORMANCE, HIGHEST POWER (205 hp) AND TORQUE (470 Nm)

With an extra wide range of engines available, two displacements 2.3-litre and 3.0-litre, from 116 up to 205 hp and from 320 to 470 Nm of torque, matched with the record gross weight of 7.2 tonnes, the Daily HI-MATIC Ɛ6 offers the best range available for the most demanding tasks.

The new front grille creates a horizontal line linking the headlamps and giving fluidity to the design. The Daily HI-MATIC Ɛ6 family is now even more easily recognisable thanks to the exclusive chrome grille.

READY TO ACCOMPLISH ANY MISSION

Daily HI-MATIC Ɛ6 URBAN
Maximum Daily Comfort

A DAILY EURO 6 FOR EVERY BUSINESS

DAILY ELECTRIC. YOUR SILENT ZERO EMISSIONS* PARTNER

The Daily Electric is the only 100% electric vehicle in its class. It runs silently and efficiently on a high efficiency battery system. Together with the Eco-Power mode and regenerative braking strategies, it keeps energy use low. This results in an extended range of up to 280 km (NEDC**) and greater payload capacity. With the Fast Charge mode it can take just a couple of hours to recharge. You can even plug it in a 230V socket at home. The Daily Electric has the widest line-up in the industry, and with options up to 5.2 tonnes gross vehicle weight.

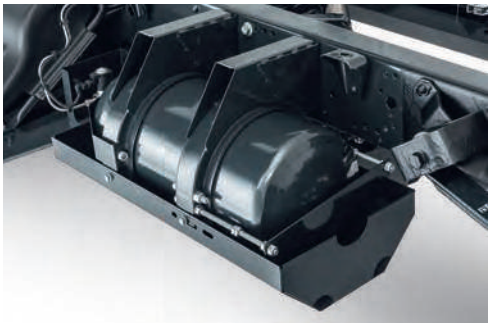
* Refers to driving phase only.
** New European Driving Cycle

DAILY ELECTRIC

DAILY NATURAL POWER. THE SUSTAINABLE AND POWERFUL TRANSPORT

The Daily Natural Power features **the most environmentally friendly** internal combustion engine. It is **unique** in that it has a true diesel engine adapted to run on Compressed Natural Gas. This means that it delivers the same performance as its diesel equivalent in **power**, **torque and response**, and offers the same model line-up as the diesel range. It is also **quieter**, so that it can do night-time deliveries in city centres and work in low emission zones. The Daily Natural Power has quickly become popular among transport professionals looking for effective solutions to **reduce their carbon footprint**.

NATURAL POWER



DAILY 4X4 EURO 6. GEARED UP FOR OFF-ROAD

Thanks to its versatility the Daily 4x4 EURO 6 is the right vehicle to achieve any off-road mission, even in the toughest conditions and remotest locations. Available in 3.5 and 5.5 tonne models, 180 hp engine Euro 6 Heavy Duty homologation compliant, the Daily 4x4 EURO 6 is more than just a truck:

- The cab is designed to create maximum driving comfort
- The 3-piece steel front bumper can resist hard impacts and is designed for easy repair
- The fuel tank is well protected and the rear under-run protection bar folds up

With on-road and off-road tyres, Daily 4x4 EURO 6 can easily handle the roughest terrain, up and down hills and over both hard and low friction roads. The extensive range of bodies, combined with the extreme vehicle performance, make Daily 4x4 EURO 6 the perfect partner for businesses required to work off the beaten track.

DAILY E6 MOTORHOME. THE BEST PLACE TO BUILD YOUR HOLIDAY HOME

With the **Daily HI-MATIC E6** and the **Daily 4x4 E6** the IVECO motorhome family is able to realise a wide range of motorhomes, from compact versions to the more luxurious models, always with top safety and comfort. Easy to drive, comfortable and incredibly light, the **Daily HI-MATIC E6 is the perfect solution for your motorhome**. The **class exclusive HI-MATIC 8-speed automatic gearbox** is designed to provide absolute driving pleasure: you can enjoy enhanced safety while driving comfortably and achieving both top performance with extremely low fuel consumption. The **Daily 4x4 E6 takes your home everywhere**, thanks to its 24 gears, unlimited climbing ability and amazing off-road features, you can enjoy it on any terrain, as it can easily overcome any difficulty.

IVECO DAILY CHASSIS. A MORE COMPLETE RANGE FOR PASSENGER TRANSPORT

The Daily E6 range offers more enhancements and versatility for bodybuilders, featuring a greater number of solutions and load capacity ranging from 4.5 to 7.2 tonnes. It is the ideal base for building a Minibus thanks to its body building simplicity and the exceptionally robust truck-derived chassis, its heavy-duty and durable transmission and the **HI-MATIC 8-speed automatic gearbox.** In addition, the 3.0-litre engine in diesel and CNG models ensures outstanding reliability. It also offers a wide choice of load capacities and tailored solutions. The Daily E6 chassis offer for bodybuilders includes the truck, the cowl, the reduced cowl and the cut away versions with GVW up to 7.2 tonnes.

IVECO BUS

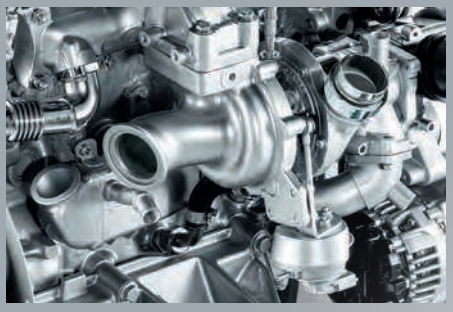
DAILY 70 E6. NO ONE COMES CLOSE

If you want more, the Daily 70 E6 is made for you. With a gross vehicle weight up to **7.2 tonnes**, long wheelbase of up to 5,100 mm and a load capacity of 4,900 kg, it is the biggest in the market - no one else comes close. It is engineered to be strong; the only light commercial vehicle built like a truck with a **solid load-bearing chassis** and **high performance suspensions**. And, with the offer of body provision, it can be customised for a wide variety of missions - it can be turned even into a recovery truck or an armoured vehicle. It features a 3.0-litre F1C diesel engine and is available in a Natural Power version, a plus for missions in urban areas with low emission zones. And drivers will enjoy the premium comfort of the Daily cab. Known for its versatility, the Daily 70 E6 **is the strongest and carries the biggest payload in its category** - a unique vehicle that will give you high returns on your investment year after year.

NEW DAILY E6 AT A GLANCE

PROFIT MAKER

- Choose your professional partner from the widest offering in the market
- Save up to 8% fuel thanks to the Variable Displacement Oil Pump, the Variable Geometry Turbocharger, the EcoSwitch PRO, the reduction in engine weight and the reduced friction in the engines and axles
- Reduce your fuel consumption even further thanks to the real-time driving suggestions of the exclusive Driving Style Evaluation
- Enjoy a 12% reduction on maintenance and repair costs thanks to longer lasting components and optimized braking system
- Rely on a professional Service Network whenever and wherever you need it



SUSTAINABLE TECHNOLOGY

- Keep your vehicle management as simple as possible with the LP-EGR technology without AdBlue® - available with the even more powerful F1A 2.3-litre engine
- Get all the power you need with the simple and efficient SCR technology
- Experience the absolute driving pleasure with the class exclusive 8-speed automatic gearbox available in the Daily Hi-Matic E6 family
- Enjoy a performance equivalent to a diesel engine with the clean and quiet running of the Daily Natural Power

UNRIVALLED PERFORMANCE

- Choose the business partner that is the best fit for your missions, available with the 2.3-litre and 3.0-litre engines
- Take advantage of the broad range of power ratings, from 116 hp right up to 205 hp, and torque from 320 Nm up to 470 Nm
- Exploit the benefits of the rear traction to drive in optimal conditions while carrying maximum loads

UNLIMITED VERSATILITY

- Whatever your mission, find the Daily E6 that matches your requirements. Ranging from 3.3 to 7.2 tonnes GVW, with wheelbases from 3,000 to 5,100 mm and body lengths up to 6,190 mm, it is the most versatile vehicle in its class
- Customise your Daily E6 from the extensive availability of bodywork solutions allowing for a wide variety of missions
- Select the version that satisfies your business requirements: chassis cab, crew cab and chassis cowl
- Take full advantage of the benefits of the Daily E6 chassis, the toughest and easiest to transform thanks to its C-section frame in special steel

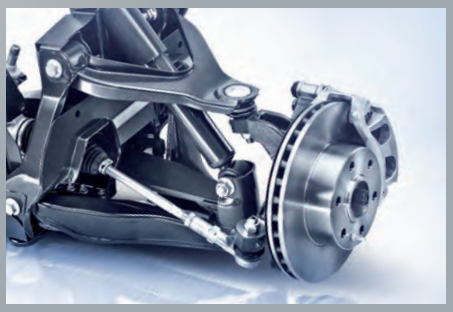
PRODUCTIVE COMFORT

- Enjoy the quiet cab, where the interior noise level has been significantly reduced by 3-decibel improving vehicle acoustics and sound recognition by 8%
- Experience the ergonomic dashboard controls, easily reachable for a safe driving
- Organise your personal and working objects in up to 18 handy storage compartments
- Work in a comfortable and professional environment with the new leather steering wheel, the blue seat upholstery and the new textile foam headrest

ON-BOARD CONNECTIVITY

- Keep your business connected with the unique DAILY BUSINESS UP
- Optimise your driving performance with the Driving Style Evaluation and the vehicle efficiency management tools
- Always find the best route with the 3D professional navigation system
- Maximise your fleet's efficiency by scheduling and dispatching jobs through the fully integrated FleetWork

UNIQUE DURABILITY



- Count on the long life of the driveline, ensured by the reliable engine and transmission that always run at optimal speed
- Find your lifelong partner in the Daily Ⓔ6 and get the full benefit of its excellent value
- Benefit from savings of up to 12% in maintenance and repair costs and 20% more up-time between services, maintenance intervals extended to 50,000 km

INNATE ROBUSTNESS

- Load your Daily to its maximum capacity every day, year after year, in the knowledge that it can be relied on to complete every mission effectively
- Benefit from all the strength of the only light commercial vehicle with a truck-like solid steel chassis side members, up to 5 mm thick
- Get the job done faster and with fewer trips thanks to its bigger payload capacity of up to 4,900 kg

LINE-UP

CHOOSE THE RIGHT DAILY TO SATISFY YOUR BUSINESS NEEDS

The Daily EEV offers the widest model range in the industry, with as many as 8,000 factory versions to choose from. They combine the different wheelbases, power ratings, volumes, internal heights of the load compartment and load capacities to match a broad spectrum of missions. The Daily EEV was born to serve the transport professional and has followed its sound business instinct throughout the years, anticipating the evolution of the industry and expanding the range to meet the increasingly wide variety of requirements.

CHASSIS CAB SINGLE WHEEL

The Chassis Cab single wheel, with body lengths up to 4,495 mm, gross vehicle weight up to 3.5 tonnes and payload up to 1,600 kg, offers strength and comfort combined with excellent bodybuilding flexibility.

CHASSIS CAB TWIN WHEEL

The Chassis Cab twin wheel version is available in body lengths up to 6,190 mm, gross vehicle weight up to 7.2 tonnes and payload up to 4,900 kg. It stands out for its unrivalled robustness and versatility.

CREW CAB

The robust Crew Cab can accommodate the driver and 6 passengers, travelling in comfort.

OPTIONS

TAILOR YOUR DAILY E6 TO FIT YOUR MISSION

DAB RADIO

Enjoy all the functionalities of the Digital Broadcasting Radio with high speed dual tuner and voice recognition. View radio station and programme information on the 4-row display, and receive traffic, weather and news announcements as you go. Connect your smartphone with Bluetooth so you can drive safely while making hands-free calls.

DAB RADIO + DAILY BUSINESS UP

Enjoy all the DAB radio functionalities and connect your smart phone or tablet to the vehicle to turn it into your ideal business partner with the DAILY BUSINESS UP app.

IVECONNECT

Control the functionalities of your Daily's infotainment, telephone and navigation integrated system from a practical 7-inch touch-screen. You can connect up to 5 mobile phones with Bluetooth for hands-free calls and control both radio and phone on the steering wheel.

OPEN COMPARTMENT WITH INDUCTIVE CHARGER

Ensure your mobile device always has a full battery: place it on the useful inductive charger next to your paperwork in the storage compartment integrated in the dashboard.

TABLET HOLDER

The useful tablet holder on the dashboard can safely keep in place mobile devices of all sizes. It can also be used as a practical clipboard to keep your paperwork in place.

USB INPUT

Charge your smartphone or tablet with the additional USB plug on the dashboard.

PASSENGER BENCH WITH EXTRACTABLE TABLE

Use your laptop and do your paperwork on the practical extractable table.

SUSPENDED SEATS

The suspended seats, also available heated, offer extra comfort for the driver and passengers.

PREMIUM HEADREST

Drive in safety and comfort with the new premium textile foam headrest.

LEATHER STEERING WHEEL

Enjoy the luxurious feel of the leather steering wheel on your long days at work.

AIR CONDITIONING WITH MANUAL OR AUTOMATIC CONTROL

Maintain a pleasant temperature in the cab and keep the allergens out with the Daily's air conditioning system. Choose from the efficient manual control or the automatic climate control that optimises the use of the compressor, reducing energy consumption.

WEBASTO INDEPENDENT HEATER

Cold starts are a thing of the past with the Webasto independent heater: set the timer to pre-heat the engine and the cab, and step into your pleasantly warm Daily vehicle when you are ready to go.

REAR AIR SUSPENSION

If your mission requires intensive loading and unloading activity, you will appreciate the rear air suspension, which quickly lowers and raises the loading bed so that you won't waste any time.

ECOSWITCH PRO

The intelligent EcoSwitch PRO system knows when to step in without intervention from the driver, reducing fuel consumption and further lowering the emissions generated by your Daily Ⅵ.

Telma ELECTROMAGNETIC RETARDER

The Telma® LVRS600 electromagnetic retarder provides the vehicle with a braking torque of 350 Nm, with full compatibility with the ESP system. Available also on the Daily HI-MATIC family, it provides up to 80% of vehicle braking needs, reducing brake wear and temperature and increasing vehicle safety. It is enabled from a special lever on the dashboard, and is operated by pressing the brake pedal.

LANE DEPARTURE WARNING SYSTEM (LDWS)

The system gives off a clear acoustic warning signal to warn the driver of any unintentional lane changes due to drowsiness, tiredness or distraction. Standard on models above 3.5 t Gross Vehicle Weight.

CRUISE CONTROL

The system memorises and maintains the vehicle at the speed set by the driver. Particularly suited for interurban missions and in regular traffic conditions, it makes driving more comfortable and optimises fuel consumption.

REINFORCED REAR SUSPENSION

The wide choice of reinforced rear suspension, including Parabolic, Parabolic reinforced or Semi-elliptic springs, enhances the vehicle strength for the most demanding missions.

ALLOY WHEEL

Only available for single wheel versions. Alloy wheels, the perfect combination of function and style, lightens the overall tare by 6 kg thus increasing the useful load.

WHEEL HUB COVERS

Only available for single wheel versions. The wheel hub cover protects the hub cap and wheel from accidental knocks against pavements, adding to the style of the vehicle.

OPTION PACKS

CONFIGURE YOUR NEW DAILY E6

The various packs are grouped into three main categories to help you create the exact model you need for your business. You can choose how well equipped you want your Daily E6 to be: opt for the well-appointed **Business** pack or the top-of-the-range **Business Premium**. In addition, you can choose the pack that matches your business's mission: **Construction, Tipper** or **Special equipment**. And you can further customise it by selecting and combining the available packs according to the functionalities you need - for example, you could opt for the **Towing, Winter** or **Eco** packs. You just need to pick the packs you are interested in from the three categories and create your Daily E6, tailored to meet your precise requirements.

* *Selected paint colours are available as an option at an additional price.*

ACCESSORIES

ENHANCE YOUR DAILY EURO 6 EXPERIENCE

Customise your Daily EURO 6 by choosing from a wide range of high quality accessories developed to enhance the look, comfort, safety, technology and connectivity of your vehicle.

Fixed Spoiler - Business Version with Boxes

Sunvisor and Deflectors

MAXIMISE EFFICIENCY

Maximise your Daily EURO 6's efficiency with original roof spoilers that provide an excellent aerodynamic solution to reduce fuel consumption. Always be ready for work with the sun visor: it reduces the effect of the sun's rays and prevents ice from forming on the windshield on cold winter days. Enhance your vehicle's performance with deflectors that reduce aerodynamic drag and turbulence without affecting visibility.

Multimedia System «Full Vision»

Smart Driving Auxiliary System

BRING HI-TECH ON BOARD

Accessorise your mobile workstation with the most up-to-date features and technology. The "Full Vision" Multimedia System comes complete with navigation system and rear camera to provide a complete multimedia navigation and reversing safety solution. The Smart Driving Auxiliary System features a GPS Navigation system and Digital Video Recorder with a high resolution camera to record in the case of a collision. If you want to be always connected, opt for the 3G Wi-Fi router, which supports up to 10 Wi-Fi devices simultaneously on line.

Tyre Pressure Monitoring System

Pushbar

ALWAYS SAFE

Choose from a range of accessories to increase your safety when you drive: a Tyre Pressure Monitoring System to ensure your tyres are always at the right pressure to drive fuel efficiently, or parking sensors for easy manoeuvring. The pushbar, which has European certification, provides front protection and increases active and passive protection of the vehicle and pedestrians.

Seat covers & Mats

Lavazza Coffee Machine

MORE ENJOYABLE TRAVEL

Choose the seat covers and mats that are most suitable for your activity. Always have a delicious hot drink within reach with the Lavazza coffee machine. The Daily EURO 6 offers everything you might want to make your life on board as comfortable as you like.

Assistance Non-Stop

IVECO ASSISTANCE NON-STOP is just a phone call away 24 hours a day, 7 days a week to keep your Daily and your business running.

IVECO Non Stop

IVECO NON-STOP is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Centre. We will take care of your request immediately, activate the nearest workshop and follow up on the vehicle's repair. Through the app you can receive updates on the progress of your vehicle's assistance.

IVECO FAN SHOP

IVECO FAN SHOP

You can choose from a range of IVECO work and leisure clothes, stationery and gadgets at your dealership or at the IVECO online store **www.ivecostore.com.**

IVECO | Genuine Parts HIGH PERFORMANCE

IVECO GENUINE PARTS will keep your Daily running reliably during its long years at your service - and cost efficiently. The wide offering ranges from new and remanufactured parts to servicing kits and telematics solutions. IVECO operates a network of 8 Parts depots and uses advanced technologies to guarantee 24/7 deliveries across Europe.

CNH INDUSTRIAL

IVECO is a brand of CNH Industrial N.V., a global leader in the capital goods sector that, through its various businesses, designs, produces and sells agricultural and construction equipment, trucks, commercial vehicles, buses and specialty vehicles, in addition to a broad portfolio of powertrain applications. It also distributes high performance genuine parts for all CNH Industrial Commercial Brands.
